

Welcome to the SCOTT PIERSON TRAIL

The Scott Pierson Trail extends along the State Route 16 corridor from 25th Street in Tacoma to Stone Drive near Gig Harbor. The five-mile pedestrian and bicycle trail is named in honor of City of Tacoma Landscape Architect and Urban Planner, Scott Pierson (1943-2001).

Mr. Pierson devoted his life work to advancing non-motorized transportation and environmental stewardship in Tacoma and throughout Pierce County. He was the strongest advocate and often times the lone voice for this long promised trail. He lived his convictions by commuting to work on his bicycle each and every day. His devotion to public service has inspired and enriched our community.

Enjoy your journey and please take good care of your trail.
